READING FOR WRITING

BOOK 2 **CORE**

고1 ~ 고2 · 읽고, 고르고, 직접 쓴다
스무 갈래 · 지문 40편 · 단원마다 영상 3편

학생용

GUIDE 이 책은 이렇게 공부합니다

한 단원 = 4쪽 · 영상 3편

1쪽 READING 1
도입 → 전개 → 결론, 글의 자리를 보며 읽는다. 굵은 문장은 시험에 다시 나오는 핵심 구문.

2쪽 수능형 3 + 서술형 2
요지·함의·일치로 이해를 확인하고, 요약문과 배열 영작은 직접 쓴다.

3쪽 READING 2
빈칸 추론과 어법을 고른 뒤, 틀린 어법을 고쳐 쓰고 이유까지 적는다.

4쪽 FIT WRITING
두 지문의 핵심 문장을 끊어 읽고, 조건 영작 · 요약 · 내 생각 쓰기로 마무리.

혼자 공부하는 순서

1. **QR 영상 보기** — 페이지 오른쪽 위 코드(예: YF-WR2-U01-R1)가 영상 제목과 같다.
2. **교재에 표시하기** — 끊어 읽기 / , 근거 문장 밑줄, 모르는 단어 동그라미.
3. **문제 풀기** — 영상에서 “일시정지” 나오면 멈추고 먼저 푼다.
4. **오답 다시 보기** — 틀린 문제는 정답 근거 문장을 찾아 노트에 옮겨 쓴다.

기호

굵은 글씨 핵심 구문　　밑줄 문제 대상　　서술형　　직접 쓰는 문항

CONTENTS 차례

UNIT	갈래	READING 1 / 2	쪽
01	**Psychology** 심리 — 기준점 · 익숙함 · 판단	먼저 나온 숫자가 이긴다 / 익숙하면 좋아진다	4
02	**Behavior** 행동 — 손실 · 노력 · 가치	잃는 것이 더 아픈 이유 / 내가 직접 만든 선반	8
03	**Biology** 생물 — 생체 리듬 · 수면 · 생존	게으른 게 아니라 늦을 뿐 / 작은 생존 전문가	12
04	**Earth Science** 지구과학 — 조수 · 화산섬 · 지구의 움직임	달이 끌어당기는 바다 / 한 곳의 열점에서 생긴 섬들	16
05	**Food Science** 음식 과학 — 열 · 전분 · 화학 반응	노릇한 갈색에 숨은 화학 / 빵이 굳는 진짜 이유	20
06	**Sports Science** 스포츠 과학 — 회전 · 공기 · 산소	휘어지는 공의 비밀 / 공기가 희박한 곳에서 훈련하기	24
07	**Technology** 기술 — 위성 · 시간 · 음파	파란 점은 시계로 그린다 / 소리로 소리를 지우다	28
08	**Environment** 환경 — 생태계 · 외래종 · 미세플라스틱	해결사가 문제가 되다 / 빨래 속 플라스틱	32
09	**Economics** 경제 — 공유 자원 · 합리적 선택 · 비용	모두의 들판은 누구의 들판도 아니다 / 이미 사라진 돈	36
10	**Society** 사회 — 사회 규범 · 다수 · 소문	대부분의 투숙객이 하는 일 / 이야기는 전해지며 자란다	40
11	**Language** 언어 — 말소리 · 모국어 · 공손함	모든 소리를 듣고 태어나다 / 질문이 아닌 질문	44
12	**Art** 미술 — 원근법 · 소실점 · 보색	선들이 만나는 곳 / 서로를 밀어 올리는 색	48
13	**Music** 음악 — 쉼표 · 공명 · 울림	아무 소리도 없는 소리 / 악기의 몸통이 노래하는 이유	52
14	**History** 역사 — 교류 · 사상 · 표준시	눈에 보이지 않는 짐 / 기차가 시계를 맞추던 때	56
15	**Health** 건강 — 면역 · 기억 세포 · 움직임	몸을 위한 소방 훈련 / 의자의 문제	60
16	**Media** 미디어 — 확증 편향 · 증거 · 출처	'맞아'만 찾아다니는 검색 / 보는 것이 더 이상 믿는 것이 아닐 때	64
17	**Ethics** 윤리 — 공정 · 위치 · 대가	내가 누구일지 모른 채 정하는 규칙 / 공짜 앱의 진짜 가격	68
18	**Learning** 배움 — 연습 · 피드백 · 착각	문제를 섞어서 풀면 / '잘했어' 그다음 한마디	72
19	**Work** 일 — 시간 · 마감 · 분업	주어진 시간만큼 늘어나는 일 / 핀 하나를 여럿이 만들면	76
20	**Thinking** 생각 — 편향 · 자료 · 원인	돌아오지 못한 비행기 / 아이스크림은 무죄	80

The First Number Wins

먼저 나온 숫자가 이긴다

QR VIDEO YF-WR2-U01-R1

도입

Imagine you are selling your old bicycle online. A buyer asks how much you want, and you are not sure. Should you name a price first, or wait for the buyer to make an offer? Many negotiation experts would advise you to speak first, and the reason has less to do with bicycles than with the way the human mind handles numbers.

전개

When we have to make a guess, **we tend to rely too heavily on the first number we hear.** Psychologists call this the *anchoring effect*. In typical experiments, people are first shown a random number, sometimes produced by spinning a wheel, and are then asked to estimate something unrelated, such as the population of a distant city. Those who see a high number usually give higher estimates than those who saw a low one, even though they know the number has nothing to do with the question. **The first figure works like an anchor dropped into the sea: the mind can drift away from it, but only so far.** In a negotiation, the opening price plays the same role, quietly shaping every offer that follows.

결론

This does not mean that the first number always decides the outcome. It means that a starting point is never as neutral as it looks. Before you accept or argue with a price, ask yourself where your own estimate came from. If the answer is "the last number I heard," it may be time to think again from zero.

WORDS 영영 뜻으로 익힌다

negotiation	a discussion to reach an agreement	**rely on**	to depend on someone or something
random	chosen by chance, without a plan	**estimate**	to guess an amount; a rough guess
unrelated	not connected to something else	**drift**	to move slowly, often without control
outcome	the final result of something	**neutral**	not favoring any side or direction

읽었으면 고르고, 쓴다

1 요지

다음 글의 요지로 가장 적절한 것은?

① 협상에서는 상대가 먼저 가격을 제시하도록 기다려야 한다.
② 무작위로 정한 숫자는 신중한 판단에 영향을 주지 못한다.
③ 정확한 추정을 하려면 전문가의 의견을 따르는 것이 좋다.
④ 처음 접한 숫자가 이후의 판단을 생각보다 크게 좌우한다.
⑤ 가격 협상의 결과는 첫 제안에 의해 완전히 결정된다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

a starting point is never as neutral as it looks

① the first price offered is usually the fairest one
② people should always wait for others to name a number
③ careful thinkers are not affected by random numbers
④ the first number we meet can quietly bias our later judgments
⑤ negotiations are decided before they even begin

3 내용 불일치

윗글의 내용과 일치하지 않는 것은?

① The writer begins with a situation of selling a used bicycle.
② Some experts advise naming a price first in a negotiation.
③ In the experiments, people saw a random number before estimating.
④ People were influenced even when they knew the number was unrelated.
⑤ The writer claims that the first number always decides the result.

4 요약문 완성 서술형

윗글의 내용을 한 문장으로 요약하려고 한다. (A)는 주어진 철자로 시작하는 한 단어를, (B)는 윗글에서 찾아 한 단어를 쓰시오. (필요하면 형태를 바꿀 것)

The first number we meet, even a (A) r_____ one, can (B) _____ our later estimates and offers.

5 배열 영작 서술형

다음 우리말과 뜻이 같도록 <보기>의 말을 모두 한 번씩만 사용하여 문장을 완성하시오.

우리는 처음 듣는 숫자에 지나치게 많이 의존하는 경향이 있다.

보기 heavily / on / the first number / tend / too / rely / we hear / to

We

Familiar Feels Friendly

익숙하면 좋아진다

QR VIDEO YF-WR2-U01-R2

도입

Think of a song you disliked the first time you heard it. After hearing it in shops and cafés for weeks, you may have caught yourself humming along. ①That happened to you is not strange at all. People tend to like things more simply because they have met them many times.

전개

Psychologists call this the *mere exposure effect*. In studies, people ②were shown unfamiliar shapes or made-up words, some many times and some only once. Later, they rated the frequent ones as more pleasant, even when they could not remember seeing them before. One explanation is that familiar things are easier for the brain to process, and **we mistake that ease for liking.** In other words, the brain treats the familiar as _____.

결론

This explains ③why new songs slowly grow on us and why familiar faces feel friendly. But it also gives us a reason to be careful. **What we like is not always what is best**; sometimes it is only ④what we have seen most often. Before choosing, ask whether you truly prefer something or have simply ⑤gotten used to it.

WORDS 영영 뜻으로 익힌다

hum along
to sing a tune with your lips closed

mere
nothing more than; only

made-up
invented; not real

process
to deal with information in the mind

mistake A for B
to wrongly think that A is B

grow on
to become liked more and more over time

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① a threat to be avoided
② a reason for boredom
③ a sign that something is good
④ a puzzle that needs solving
⑤ a memory that should fade

2 어법

윗글의 밑줄 친 ①~⑤ 중, 어법상 틀린 것은?

① ② ③ ④ ⑤

3 어법 고쳐 쓰기 서술형

위 문제에서 고른 부분을 바르게 고쳐 쓰고, 그렇게 고쳐야 하는 이유를 우리말로 쓰시오.

4 내용 서술 서술형

필자가 결론에서 무언가를 고르기 전에 하라고 권하는 일을 우리말 30자 내외로 쓰시오.

FIT WRITING

읽은 문장을 내 손으로 다시 쓴다

QR VIDEO YF-WR2-U01-W

A 구문 FIT

두 지문에서 뽑은 핵심 문장 · 덩어리마다 / 를 긋고 해석한다

1 Those who saw a high number usually give higher estimates than those who saw a low one.

끊어 읽기 표시 → 우리말로 옮기기 **those who ~(~하는 사람들) · 비교급 + than**

2 What we like is not always what is best.

끊어 읽기 표시 → 우리말로 옮기기 **what절 주어·보어 · not always(부분 부정)**

B 서술형 FIT

조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

내게 필요한 것은 약간의 시간이다.

조건 what, need, little을 사용할 것 · 6단어

2 한 문장 요약 서술형

READING 1의 내용을 anchor와 judgments를 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

처음엔 별로였지만 자주 접하면서 좋아진 것 하나를 떠올려, At first, I ~, but now I ~ 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · what일까, that일까? — 앞에 선행사가 있는지부터 본다

what은 선행사를 품은 관계대명사(= the thing which)라서 앞에 명사가 없고, 뒤에는 주어나 목적어가 빠진 불완전한 문장이 온다. What happened is strange. (주어 빠짐) · This is what I wanted. (목적어 빠짐). 앞에 선행사가 있으면 that/which: the song that I liked.

선행사 없이 뒤 문장이 완전하면 접속사 that: I know that he likes the song. 정리 — 선행사 O → that/which · 선행사 X + 불완전 → what · 선행사 X + 완전 → 접속사 that.

READING 1

Why Losing Hurts More

잃는 것이 더 아픈 이유

QR VIDEO YF-WR2-U02-R1

도입

Suppose you find a ten-dollar bill on the street. You would probably feel pleased for a little while. Now suppose you discover that a ten-dollar bill has fallen out of your pocket. The amount is exactly the same, yet the second experience seems to sting much more, and you might keep thinking about it for the rest of the day.

전개

Psychologists call this pattern *loss aversion*. **For most people, the pain of losing something is stronger than the pleasure of gaining something of equal value.** In many studies, people turn down a coin-flip bet in which they could win or lose the same amount; to accept it, they usually want the possible gain to be clearly larger than the possible loss. The same tendency appears in everyday life. A teacher who warns that late homework will cost five points may get more work on time than one who promises five extra points for being punctual. **Even when the numbers are identical, the way a choice is framed changes how heavy it feels.**

결론

Loss aversion is not simply a flaw. For early humans, losing food or shelter could be deadly, so guarding what they already had made good sense. Today, however, it can keep us from taking reasonable risks, like joining a new club or dropping a plan that no longer works. When you hesitate, it helps to ask whether you are weighing the real stakes or only the fear of losing.

WORDS 영영 뜻으로 익힌다

sting	to cause a sharp pain, in body or mind	**aversion**	a strong feeling of not liking something
turn down	to refuse an offer or a request	**punctual**	arriving or doing something on time
frame	to present an idea in a particular way	**flaw**	a weakness or mistake in something
hesitate	to pause before doing something because you are unsure	**stakes**	what you could win or lose in a situation

읽었으면 고르고, 쓴다

1 주제

다음 글의 주제로 가장 적절한 것은?

① the importance of saving money from an early age
② why losses feel heavier than equal gains and how this shapes choices
③ how early humans protected their food and shelter
④ the benefits of avoiding every kind of financial risk
⑤ reasons why people enjoy betting on coin flips

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

you are weighing the real stakes or only the fear of losing

① whether others will blame you if your plan fails
② whether the reward is large enough to share with friends
③ whether your caution reflects actual danger or just a dislike of loss
④ whether you have already invested too much to quit now
⑤ whether modern life is really safer than life in early times

3 내용 일치

윗글의 내용과 일치하는 것은?

① Finding money feels better than losing the same amount feels bad.
② Most people gladly accept a fair coin-flip bet.
③ The writer says loss aversion has no benefits at all.
④ Loss aversion may have helped early humans to survive.
⑤ The writer advises readers to avoid every kind of risk.

4 요약문 완성 서술형

윗글의 내용을 한 문장으로 요약하려고 한다. (A)는 주어진 철자로 시작하는 한 단어를, (B)는 윗글에서 찾아 한 단어를 쓰시오.

People feel losses more (A) s_____ than equal gains, which can make them avoid reasonable (B) _____.

5 배열 영작 서술형

다음 우리말과 뜻이 같도록 <보기>의 말을 모두 한 번씩만 사용하여 문장을 완성하시오.

잃는 고통은 같은 가치의 무언가를 얻는 기쁨보다 더 강하다.

보기 of equal value / stronger / the pleasure / is / of gaining / than / something / of losing

The pain

The Shelf I Built Myself

내가 직접 만든 선반

QR VIDEO YF-WR2-U02-R2

도입

My cousin spent a whole weekend building a bookshelf from a flat box of boards and screws. It leans a little, and one door does not close properly. Still, he refuses to replace it, and he remembers ① tightening the last screw as if it were a great victory.

전개

He is not alone. In several experiments, people who assembled simple products themselves were willing to pay more for them than for identical ones ② built by experts. Some even valued their clumsy paper animals almost as highly as ones made by skilled folders. **It seems that the effort we put into something becomes part of its value in our eyes.** The key condition, however, is _____: when people were unable to complete the task, the extra love largely disappeared.

결론

This effect can be put to good use. If you want a team to care about a project, let its members build part of it, and don't forget ③ giving them a task they can actually finish. Still, stay honest. When you feel proud of your work, stop ④ to ask yourself whether others would value it as much as you ⑤ do.

WORDS 영영 뜻으로 익힌다

lean
to bend or slope to one side

assemble
to put the parts of something together

identical
exactly the same

clumsy
not skillfully made or done

condition
something that must be true for another thing to happen

put ~ to good use
to use something in a helpful way

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① finishing what you start
② working with a partner
③ following a professional
④ spending a lot of money
⑤ choosing an easy product

2 어법

윗글의 밑줄 친 ①~⑤ 중, 어법상 틀린 것은?

① ② ③ ④ ⑤

3 어법 고쳐 쓰기 서술형

위 문제에서 고른 부분을 바르게 고쳐 쓰고, 그렇게 고쳐야 하는 이유를 우리말로 쓰시오.

4 내용 서술 서술형

필자가 결론에서 팀원들이 프로젝트를 아끼게 하는 방법으로 제안한 것을 우리말 30자 내외로 쓰시오.

FIT WRITING

읽은 문장을 내 손으로 다시 쓴다

QR VIDEO YF-WR2-U02-W

A 구문 FIT

두 지문에서 뽑은 핵심 문장 · 덩어리마다 / 를 긋고 해석한다

1 For most people, the pain of losing something is stronger than the pleasure of gaining something of equal value.

끊어 읽기 표시 → 우리말로 옮기기 **전치사 of + 동명사 · 비교급 + than**

2 It seems that the effort we put into something becomes part of its value in our eyes.

끊어 읽기 표시 → 우리말로 옮기기 **It seems that ~ · 목적격 관계대명사 생략**

B 서술형 FIT

조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

나는 전에 그 책을 읽었던 것을 기억한다.

조건 remember, read를 사용할 것 (필요하면 형태를 바꿀 것) · 6단어

2 한 문장 요약 서술형

READING 2의 내용을 effort와 value를 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

직접 만들어서 더 아끼게 된 물건 하나를 떠올려, I made ~ myself. Although ~, I ~ 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · to-v일까, -ing일까? — 할 일인가, 한 일인가

remember와 forget 뒤의 to-v는 '앞으로 할 일', -ing는 '이미 한 일'이다. Remember to lock the door. (잠가야 할 일) · I remember locking the door. (잠근 기억) · Don't forget to call her. (전화할 일) · I'll never forget meeting her. (만난 기억).

stop은 다르다. stop -ing = ~하던 것을 멈추다(목적어), stop to-v = ~하기 위해 멈추다(목적). He stopped talking. (말을 멈췄다) / He stopped to talk. (말하려고 멈춰 섰다).

READING 1

Not Lazy, Just Late

게으른 게 아니라 늦을 뿐

QR VIDEO YF-WR2-U03-R1

도입

Many parents complain that their teenage children stay up too late and then cannot get out of bed in the morning. It is easy to blame phones, video games, or simple laziness. These habits may play a part, but scientists have found that something deeper is also at work: the body's internal clock itself shifts during the teenage years.

전개

Our sleep is controlled partly by a natural daily rhythm. As evening comes, the brain releases a hormone called *melatonin*, which makes us feel sleepy. **During puberty, the release of this hormone tends to start later at night than it does in childhood.** As a result, many teenagers simply do not feel tired at the hour when their younger siblings fall asleep. Yet school usually begins early, so they are woken up while their bodies still expect to be sleeping. **It is like asking someone to get up at four every morning and then wondering why they look tired.**

결론

Understanding this shift does not mean that teenagers should do whatever they want at night. Bright screens late in the evening can push the clock back even further, and regular sleep times still matter. But it does suggest that the sleepy student in the first class may not be lazy at all. Some schools have experimented with later start times, hoping that students will arrive more rested and ready to learn.

WORDS 영영 뜻으로 익힌다

blame	to say that someone or something caused a problem	**internal**	inside the body or inside something
shift	to move or change position; a change	**rhythm**	a regular, repeated pattern
release	to let a substance go out into the body	**puberty**	the time when a child's body becomes an adult's
sibling	a brother or sister	**rested**	not tired because you have slept or relaxed

읽었으면 고르고, 쓴다

1 제목

다음 글의 제목으로 가장 적절한 것은?

① Screens: The Real Enemy of a Good Night's Sleep
② How Parents Can Get Teens Out of Bed Earlier
③ A Shifting Clock: Why Teens Stay Up Late
④ Melatonin: A Simple Medicine for Better Grades
⑤ Why Young Children Need More Sleep Than Adults

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

the sleepy student in the first class may not be lazy at all

① morning tiredness may come from biology rather than attitude
② students who sleep in class should be given extra work
③ first classes are usually the most boring of the day
④ teachers should stop giving homework to tired students
⑤ teenagers need far less sleep than younger children

3 내용 불일치

윗글의 내용과 일치하지 않는 것은?

① Some people blame phones or laziness for teens' late nights.
② Melatonin is a hormone that keeps people awake at night.
③ Melatonin release tends to start later during puberty.
④ Bright screens at night can delay the body clock further.
⑤ Some schools have tried starting classes later.

4 요약문 완성 서술형

윗글의 내용을 한 문장으로 요약하려고 한다. (A)는 주어진 철자로 시작하는 한 단어를, (B)는 윗글에서 찾아 한 단어를 쓰시오.

During puberty, the body clock tends to be (A) d_____, so teens' late nights are not simply a sign of (B) _____.

5 배열 영작 서술형

The Tiny Survivor

작은 생존 전문가

QR VIDEO YF-WR2-U03-R2

도입

①Measuring usually less than a millimeter in length, tardigrades are among the toughest animals on Earth. These tiny creatures, often called water bears, live in damp places such as moss and wet soil. **What makes them famous is not their size but their ability to survive conditions that would kill most living things.**

전개

Their secret lies in how they respond to drying out. ②Surrounding by dry air, a tardigrade pulls in its head and legs and curls into a small, dry ball called a *tun*. In this state, its body activity drops to an extremely low level, almost as if _____. ③Protected by special molecules that take the place of the lost water, it can wait for years. When water returns, the animal slowly swells up again, ④moving as though nothing had happened.

결론

In this dried form, tardigrades have survived extreme cold, crushing pressure, and even a trip into outer space during experiments. ⑤Studied closely, these little animals may one day help scientists find better ways to store medicines without a refrigerator.

WORDS 영영 뜻으로 익힌다

tough
strong; able to survive hard conditions

damp
slightly wet

moss
a small, soft green plant that grows on rocks or trees

curl
to bend into a round shape

molecule
the smallest unit of a substance

swell up
to become larger and rounder

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① its life had been put on pause
② it were searching for food
③ it were growing much larger
④ it had been attacked by enemies
⑤ it were getting ready to lay eggs

1 During puberty, the release of this hormone tends to start later at night than it does in childhood.

끊어 읽기 표시 → 우리말로 옮기기 **tend to-v · 비교급 + than · 대동사 does**

2 Surrounded by dry air, a tardigrade pulls in its head and legs.

끊어 읽기 표시 → 우리말로 옮기기 **수동 분사구문(p.p.로 시작)**

B 서술형 FIT 조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

음악을 들으면서, 그는 숙제를 했다.

조건 listen을 사용한 분사구문으로 시작할 것 · 7단어

2 한 문장 요약 서술형

READING 1의 내용을 teenagers와 clock을 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

자신의 수면 습관을 떠올려, On school nights, I usually ~. To sleep better, I will ~ 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · 분사구문, -ing일까 p.p.일까? — 주절의 주어에게 물어본다

분사구문의 의미상 주어는 주절의 주어다. 그 주어가 동작을 '하면' -ing, '당하면' p.p.로 시작한다. Walking home, I met Mina. (내가 걷는다) · Seen from the sky, the island looks like a heart. (섬이 보여진다) · Surrounded by dry air, a tardigrade curls up. (물곰이 둘러싸인다).

p.p. 뒤에 by가 나오면 수동 신호. 단, 분사구문 앞의 being은 보통 생략된다 — (Being) Tired, I went to bed early.

READING 1

Pulled by the Moon

달이 끌어당기는 바다

QR VIDEO YF-WR2-U04-R1

도입

Every year, some visitors walk far out onto wide, muddy flats at low tide to collect shells, only to find the sea rushing back faster than they expected. Water that seemed to have disappeared returns within a few hours, and people who did not check the time can be trapped. To understand why this happens, we have to look up at the sky.

전개

Tides are caused mainly by the moon's gravity pulling on the Earth and its oceans. The moon pulls hardest on the side of the Earth that faces it, so the water there rises into a bulge. On the opposite side, the pull is weakest, and the water there forms a second bulge, as if it were being left behind. As the Earth spins, most coasts pass through both bulges, which is why many places see two high tides and two low tides each day. Because the moon also moves along its orbit, **the times of the tides shift a little later from one day to the next.**

결론

This means that the sea follows a schedule, but not the one on your watch. A beach that was safe at noon yesterday may not be safe at noon today. So before you walk out onto a tidal flat or explore the rocks along the shore, take a minute to check the local tide times. The moon will not wait for you to finish collecting shells, and knowing its rhythm is the simplest way to enjoy the sea safely.

WORDS 영영 뜻으로 익힌다

flat	a wide area of low, level land, often by the sea	**only to**	used to show a surprising or unwelcome result
trap	to keep someone in a place they cannot escape	**gravity**	the force that pulls objects toward each other
bulge	a part that swells out from a surface	**opposite**	on the other side; facing the other way
orbit	the curved path of one object around another	**tidal**	related to the rise and fall of the sea

읽었으면 고르고, 쓴다

1 주장

다음 글에서 필자가 주장하는 바로 가장 적절한 것은?

① 갯벌 생태계를 보호하기 위해 조개 채집을 금지해야 한다.
② 달의 움직임을 직접 관찰하며 과학을 공부해야 한다.
③ 바다에 갈 때는 반드시 정오 이전에 돌아와야 한다.
④ 해안 지역에 조수 경보 시설을 더 많이 설치해야 한다.
⑤ 갯벌이나 해안에 나가기 전에 그 지역의 물때를 확인해야 한다.

2 함의 추론

Islands from One Hot Spot

한 곳의 열점에서 생긴 섬들

QR VIDEO YF-WR2-U04-R2

도입

Most volcanoes form near the edges of the huge plates that make up the Earth's surface. The Hawaiian Islands, however, sit in the middle of the Pacific Plate, far from any edge. For years, this ①puzzled scientists. How could volcanic islands form so far from where plates meet?

전개

The explanation that ②has been accepted by most geologists is the *hot spot* idea. Deep below Hawaii, a hot area feeds melted rock up through the plate. The hot spot stays in roughly the same place, but the plate above it slowly ③moves northwest. **Each time a volcano is carried away from the hot spot, it loses its supply of magma, and a new volcano begins to form behind it.** As a result, the islands get _____ as you travel northwest along the chain.

결론

Today, the Big Island, at the southeastern end, is the youngest and still has active volcanoes. Even now, new land ④is being created there whenever lava flows into the sea. Off its southeastern coast, an underwater volcano ⑤has been grown slowly for a long time; one day it may become a new island.

WORDS 영영 뜻으로 익힌다

plate
one of the huge pieces of rock that cover the Earth

puzzle
to make someone confused

geologist
a scientist who studies rocks and the Earth

magma
hot, melted rock below the Earth's surface

supply
an amount of something that is provided

lava
hot, melted rock that comes out of a volcano

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① younger and taller
② older and more worn down
③ hotter and more active
④ closer to the hot spot
⑤ larger and more crowded

The Chemistry of Golden Brown

노릇한 갈색에 숨은 화학

QR VIDEO YF-WR2-U05-R1

도입

Drop a slice of white bread into a toaster, and a few minutes later something remarkable happens. The pale surface turns golden brown, and the kitchen fills with a rich, warm smell. Nothing has been added to the bread, yet it now tastes completely different. Where did all that new flavor come from?

전개

The answer is a group of chemical changes known as the *Maillard reaction*, named after the French chemist who first studied it. **When food is heated, sugars and proteins on its surface react with each other and form hundreds of new compounds.** Some of these compounds are brown, which is how a steak gets its dark crust and roasted coffee beans get their deep color. Others produce the smells we connect with grilling and baking. The reaction, however, works best on dry surfaces at high temperatures. **This is why boiled meat stays gray, while the same meat seared in a hot pan turns brown.** As long as water covers the surface, the food cannot get much hotter than the boiling point, which is too cool for the reaction to speed up.

결론

Cooks have relied on this reaction for centuries without knowing its name. Patting meat dry before cooking, heating the pan first, and not crowding too much food into it all help the reaction happen. Seen this way, a skilled cook is really a chemist who controls heat and water. So the next time you smell fresh toast, remember that you are smelling chemistry at work.

WORDS 영영 뜻으로 익힌다

remarkable	unusual or surprising in a way worth noticing	**pale**	light in color; not bright or dark
compound	a substance made of two or more elements joined together	**crust**	the hard outer layer of food
sear	to cook the surface of food quickly with strong heat	**boiling point**	the temperature at which a liquid starts to boil
rely on	to depend on something to work or help	**crowd**	to fill a space with too many things

읽었으면 고르고, 쓴다

1 주제

다음 글의 주제로 가장 적절한 것은?

① health risks of eating food cooked at high heat
② reasons cooks should boil meat instead of frying it
③ how a heat-driven reaction gives food new color and flavor
④ the role of water in keeping cooked food fresh and safe
⑤ why some people prefer pale bread to brown toast

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

a skilled cook is really a chemist who controls heat and water

① good cooking requires expensive laboratory equipment
② most professional cooks have studied chemistry at school
③ recipes should be written in the style of science reports
④ cooking well means managing the conditions for chemical change
⑤ chemists are usually better at cooking than chefs are

3 내용 일치

윗글의 내용과 일치하는 것은?

① The Maillard reaction needs sugar alone to take place.
② Boiled meat turns brown faster than seared meat.
③ The reaction happens most easily on wet surfaces.
④ Cooks learned the reaction's name before they used it.
⑤ The reaction produces both brown colors and new smells.

4 요약문 완성 서술형

Why Bread Turns Hard

빵이 굳는 진짜 이유

QR VIDEO YF-WR2-U05-R2

도입

Most people believe that bread goes hard simply because it dries out. ①It seems natural to think so, since stale bread feels dry in the mouth. Yet bread can turn stale even when it is wrapped tightly and loses very little water. Something else must be going on inside the loaf.

전개

The real cause lies in starch. During baking, heat and water loosen the starch in the flour, which makes the bread soft and springy. **As the loaf cools, however, the starch slowly _____, becoming firm and crumbly.** Scientists call this change *retrogradation*. It is surprising to many people ②that this process happens fastest at refrigerator temperatures, not at room temperature.

결론

So **it is actually a poor idea** ③**keep bread in the refrigerator.** If you cannot finish a loaf within a day or two, it is better ④to freeze the slices you will not eat soon, because freezing almost stops the change. And when bread has already gone a little hard, ⑤warming it briefly in an oven can loosen the starch and make it soft again.

WORDS 영영 뜻으로 익힌다

stale
no longer fresh; hard or dry

starch
a white substance found in foods like flour, rice, and potatoes

loosen
to make something less tight or firm

springy
returning quickly to its shape after being pressed

crumbly
easily breaking into small pieces

briefly
for a short time

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

The Pitch That Bends

휘어지는 공의 비밀

QR VIDEO YF-WR2-U06-R1

도입

A batter sees a pitch coming straight toward the middle of the plate and swings with confidence. At the last moment, the ball seems to drop and slide away, and the bat cuts through empty air. For many years, some people insisted that the curveball was nothing more than an optical illusion. Careful experiments, however, have shown that the ball really does change its path.

전개

The secret is spin. When a pitcher throws a curveball, he snaps his wrist so that the ball rotates rapidly as it flies. **A spinning ball drags a thin layer of air around with it, and this changes how the air flows past the ball.** The air leaving the back of the ball is pushed toward one side, so the ball itself is pushed toward the other side. This sideways push is called the *Magnus effect*, after the German scientist who explained it. **The faster the ball spins, the stronger the force becomes.**

결론

The same effect shows up in other sports, too. A soccer player bends a free kick around a wall of defenders, and a tennis player uses topspin to make a hard shot dip into the court. For a batter, though, the curveball is especially cruel. Because the sideways push keeps adding up during the flight, the ball moves only a little at first and much more near the end. In this sense, the pitcher wins not by throwing harder but by making the air do the work.

WORDS 영영 뜻으로 익힌다

insist	to say firmly that something is true	**optical illusion**	something that tricks your eyes into seeing what is not real
snap	to move quickly and sharply	**rotate**	to turn around a center point
drag	to pull something along behind you	**sideways**	toward the side, not forward or backward
dip	to drop down suddenly	**cruel**	causing pain or trouble without pity

Training Where the Air Is Thin

공기가 희박한 곳에서 훈련하기

QR VIDEO YF-WR2-U06-R2

도입

Many endurance athletes, such as long-distance runners and cyclists, spend weeks training high in the mountains. At first, this choice seems strange. Because the air pressure is lower up there, each breath brings in ①fewer oxygen molecules than it does at sea level. Even an easy jog can feel ②much harder than usual, and sleep may not come easily.

전개

That difficulty is exactly the point. When the body senses a lack of oxygen, it responds by ③producing more red blood cells, which carry oxygen to the muscles. This change takes several weeks. **When the athletes return to lower ground, their extra red blood cells allow them to perform ④even better than before.** In a sense, they turn a shortage of oxygen into _____.

결론

The method has its limits, though. The extra cells gradually disappear over a few weeks, and the benefit is ⑤very smaller for some athletes than for others. Training hard in thin air is also tiring. **For these reasons, many coaches now prefer a mixed plan: their athletes live high but come down to train hard.**

WORDS 영영 뜻으로 익힌다

endurance
the ability to keep going for a long time

air pressure
the force of the air pressing on things

molecule
the smallest unit of a substance

red blood cell
a blood cell that carries oxygen around the body

shortage
a situation in which there is not enough of something

benefit
a helpful or good result

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① an advantage they can bring back down
② a reason to stop training for a while
③ a danger that no athlete can avoid
④ a habit of breathing more slowly
⑤ a test that only beginners need to pass

The Blue Dot and the Clock

파란 점은 시계로 그린다

QR VIDEO YF-WR2-U07-R1

도입

When you open a map on your phone, a small blue dot shows exactly where you are standing. It feels as if a satellite is watching you from space. In fact, the opposite is true. Your phone sends nothing to the satellites at all. It simply listens to signals that are falling quietly on the whole planet.

전개

Each GPS satellite carries extremely accurate clocks and keeps broadcasting two pieces of information: where it is and what time it is. **Because radio signals travel at the speed of light, your phone can work out how far away a satellite is from how long its signal took to arrive.** Once it knows its distances from several satellites, the phone can find the single spot on Earth that fits them all. At least four satellites are needed, since the phone's own clock is far less accurate and has to be corrected as well.

결론

The whole system depends on timing to an amazing degree. **An error of just one millionth of a second would place you about 300 meters away from where you really are.** Engineers even have to adjust the satellite clocks for tiny effects predicted by Einstein's theory of relativity. So, in a way, the little blue dot is less a picture of you than a picture of time, measured with remarkable care. Without that care, the map on your phone would be almost useless.

WORDS 영영 뜻으로 익힌다

satellite	a machine sent into space to circle the Earth	**the opposite**	something completely different from another thing
broadcast	to send out a signal so many can receive it	**work out**	to find an answer by calculating
correct	to make something right or accurate	**degree**	the amount or level of something
adjust	to change something slightly to make it right	**relativity**	Einstein's theory about time, space, and motion

읽었으면 고르고, 쓴다

1 요지

다음 글의 요지로 가장 적절한 것은?

① 위성은 우주에서 사용자의 위치를 직접 관찰한다.
② 스마트폰은 위성에 신호를 보내 위치를 확인받는다.
③ 위치 정보는 사생활 침해의 위험이 매우 크다.
④ GPS는 위성 신호의 정밀한 시간을 이용해 위치를 계산한다.
⑤ 위성의 수가 많을수록 지도 앱의 속도가 빨라진다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

the little blue dot is less a picture of you than a picture of time

① satellites take photographs of users from space
② your location is calculated from very precise measurements of time
③ the map shows where you were a few minutes ago
④ GPS works better at night than during the day
⑤ phone clocks are more accurate than satellite clocks

3 내용 일치

윗글의 내용과 일치하는 것은?

① A phone does not send signals to GPS satellites.
② GPS satellites broadcast only their own positions.
③ Two satellites are enough to locate a phone.
④ A phone's clock is more accurate than a satellite's.
⑤ Small timing errors make little difference to the result.

Fighting Sound with Sound

소리로 소리를 지우다

QR VIDEO YF-WR2-U07-R2

도입

On a long flight, the steady roar of the engines can make it hard to rest. Noise-canceling headphones offer a clever solution. Instead of simply blocking sound, they fight noise ①with more sound. To understand ②how this works, it helps to picture sound as a wave with high points and low points.

전개

Tiny microphones listen to the noise around you. **A chip then creates a new sound wave that is the exact mirror image of the noise: where the noise has a high point, the new wave has a low point.** When the two waves meet, they _____, and much of the noise simply disappears. This is ③why the cabin suddenly seems so quiet.

결론

This trick works best on steady, low sounds like the hum of an engine, because they are easy to predict. Sudden or quickly changing sounds, such as voices, change too quickly to match perfectly. That is ④the way how you can still hear a flight attendant with headphones on. Engineers keep improving the way these devices ⑤handle such fast-changing sounds.

WORDS 영영 뜻으로 익힌다

steady
continuing in the same way without stopping

roar
a long, loud, deep sound

mirror image
a reversed copy, like a reflection

cabin
the passenger area of a plane

hum
a low, continuous sound

high-pitched
having a high, sharp sound

The Toad That Became the Problem

해결사가 문제가 되다

QR VIDEO YF-WR2-U08-R1

도입

In the 1930s, sugarcane farmers in northeastern Australia were facing a serious problem. Beetles were damaging their crops, and nothing seemed to stop them. So a large toad was brought in from overseas, with the hope that it would eat the beetles. The plan sounded simple, natural, and safe.

전개

It turned out to be none of those things. **The toads mostly ignored the beetles, which lived where they could not easily reach them, and ate almost anything else they could find.** They also bred quickly, and with few natural enemies in their new home, they spread across a huge area of northern Australia. Worse, their skin produces a powerful poison. Native animals such as snakes, lizards, and small hunting mammals had never met this toad before, so many of them died after trying to eat one.

결론

Today the cane toad is a famous example of an invasive species: a living thing that causes harm after being moved to a place where it does not belong. Australians now spend great effort trying to slow its spread, so far with limited success. The lesson is clear. A solution that ignores the whole ecosystem can become the next problem. Before we move a plant or an animal to a new place, we need to ask not only what it will eat, but also what will happen to everything around it.

WORDS 영영 뜻으로 익힌다

sugarcane	a tall plant grown to make sugar	**crop**	a plant grown by farmers for food or sale
overseas	in or from a foreign country across the sea	**breed**	to produce young animals (past: bred)
native	living naturally in a place from the start	**mammal**	an animal that feeds its babies with milk
invasive	spreading into a place and causing harm	**ecosystem**	all the living things in an area and how they connect

1 주장

다음 글에서 필자가 주장하는 바로 가장 적절한 것은?

① 해충은 화학 약품보다 천적을 이용해 없애야 한다.
② 외래종은 발견되는 즉시 모두 없애야 한다.
③ 농작물 피해는 정부가 직접 보상해야 한다.
④ 생물을 새로운 곳에 옮기기 전에 생태계 전체에 미칠 영향을 따져야 한다.
⑤ 토종 동물을 보호하기 위해 사냥을 금지해야 한다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

A solution that ignores the whole ecosystem can become the next problem

① farmers should grow different crops every year
② pests always come back no matter what we do
③ scientists should stop trying to solve natural problems
④ every animal from another country is dangerous
⑤ fixing one problem without seeing the bigger picture can create a new one

3 내용 불일치

윗글의 내용과 일치하지 않는 것은?

① The toads were brought in to deal with beetles.
② The toads mainly ate the beetles as planned.
③ The toads had few natural enemies in Australia.
④ The toad's skin is poisonous to many animals.
⑤ Efforts to slow the toad's spread have had limited success.

4 요약문 완성 서술형

윗글의 내용을 한 문장으로 요약하려고 한다. (A)는 주어진 철자로 시작하는 한 단어를, (B)는 윗글에서 찾아 한 단어를 쓰시오.

Cane toads, brought to Australia to (A) c_____ beetles, became an (B) _____ species that harmed many native animals.

Plastic in the Wash

빨래 속 플라스틱

QR VIDEO YF-WR2-U08-R2

도입

When you watch your clothes ①spinning in a washing machine, you probably think of cleaning, not pollution. Yet many of our clothes, such as fleece jackets and sports shirts, are ②made from plastic-based materials like polyester and nylon. Each time they are washed, they rub against each other, and tiny threads called *microfibers* come loose.

전개

These fibers are so thin that you would never notice them ③break off. If you looked at the used water through a microscope, however, you would see countless fibers ④to float in it. Many are too small to be fully caught at water treatment plants, so they flow into rivers and, finally, the ocean. There, small sea creatures can mistake them for food. **So a habit that seems perfectly clean may _____.**

결론

We do not have to stop washing our clothes. **Washing full loads in cool water and washing only when clothes are really dirty can both reduce the number of fibers ⑤that escape.** Some people also use special filters or laundry bags that trap fibers before they leave the machine.

WORDS 영영 뜻으로 익힌다

pollution
harmful things that make air, water, or land dirty

rub
to press and move against something

come loose
to become separated from something

countless
too many to count

treatment plant
a place where dirty water is cleaned

mistake A for B
to wrongly think that A is B

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① save more energy than we expect
② make our clothes softer over time
③ keep harmful chemicals out of rivers
④ quietly add to pollution far away
⑤ remove plastic that is already in the sea

2 어법

Everyone's Field, No One's Field

모두의 들판은 누구의 들판도 아니다

QR VIDEO YF-WR2-U09-R1

도입

Imagine a green field at the edge of a village, open to every family's sheep. Each farmer reasons in the same way: if I add one more sheep, I get all of its extra wool and milk, while the cost of the thinner grass is shared by everyone. One more sheep, then, looks like a smart choice. The trouble is that every farmer makes exactly the same smart choice.

전개

Over time, the field turns to bare dirt, and all the sheep go hungry. The ecologist Garrett Hardin made this story famous under the name the *tragedy of the commons*. **When a resource belongs to everyone, each user has a reason to take more and little reason to protect it.** No one in the story is evil; each person is acting sensibly from where he or she stands. The same pattern appears in fishing grounds that are emptied, in shared kitchens piled with dirty dishes, and in rivers that factories treat as a free dump.

결론

The lesson is not simply that people are selfish but that a choice that is wise for one can be foolish for all. Communities have found several ways out. Some divide the resource into private shares; others set clear limits, such as fishing seasons, and watch one another closely. **What matters is that the cost of overuse comes back to the person who causes it.** Once people feel that cost, protecting the commons becomes a sensible choice for each of them, too.

WORDS 영영 뜻으로 익힌다

reason	to think in a logical way to reach a decision	**bare**	not covered by plants or anything else
ecologist	a scientist who studies living things and their surroundings	**tragedy**	a very sad event, often one that could not be avoided
commons	land or resources that a whole community may use	**sensibly**	in a reasonable and practical way
dump	a place where unwanted things are thrown away	**overuse**	using something too much, so that it is damaged

Money That Is Already Gone

이미 사라진 돈

QR VIDEO YF-WR2-U09-R2

도입

You bought a concert ticket weeks ago, but on the night of the show you feel sick, and it is pouring rain. You would rather stay home, yet you go anyway because the money will otherwise be wasted. Economists have a name for this thinking: the *sunk cost fallacy*.

전개

A sunk cost is money, time, or effort ①that has already been spent and cannot be recovered. The mistake lies in the belief ②which past spending should decide future choices. Whether you go or not, the ticket money is gone. **The only question ③that truly matters is whether the next few hours will be better at the show or at home.** Companies fall into the same trap when they keep pouring money into a project ④which they have already invested heavily in, even after it has clearly failed.

결론

To escape this trap, ask yourself one honest question: "If I had not spent anything yet, would I still choose this?" If the answer is no, the wisest move is often to _____. It may feel painful at first, but remember the simple fact ⑤that the past cannot be bought back.

WORDS 영영 뜻으로 익힌다

pour
(of rain) to fall heavily; also, to put in a large amount

recover
to get back something that was lost

sunk cost
a cost that has already been paid and cannot be returned

invest
to put money or effort into something to gain later

fallacy
a false idea that many people believe

trap
a situation that is hard to get out of

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① spend a little more to protect what you paid
② ask your friends what they would do
③ wait until the loss becomes even larger
④ keep going so that nothing is wasted
⑤ stop and let the past spending go

A 구문 FIT

두 지문에서 뽑은 핵심 문장 · 덩어리마다 / 를 긋고 해석한다

1 When a resource belongs to everyone, each user has a reason to take more and little reason to protect it.

끊어 읽기 표시 → 우리말로 옮기기 **a reason + to-v · little + 셀 수 없는 명사**

2 The mistake lies in the belief that past spending should decide future choices.

끊어 읽기 표시 → 우리말로 옮기기 **동격 접속사 that + 완전한 문장**

B 서술형 FIT

조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

나는 내가 그 돈을 이미 써 버렸다는 사실을 잊었다.

조건 fact, that, already, spend를 사용할 것 (필요하면 형태를 바꿀 것) · 11단어

2 한 문장 요약 서술형

READING 2의 내용을 sunk cost와 future를 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

이미 쓴 돈이나 시간이 아까워서 계속했던 일 하나를 떠올려, I kept ~ because ~. Now I think ~. 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · that일까, which일까? — 뒤 문장이 완전한지 먼저 본다

뒤에 주어·목적어가 다 있는 완전한 문장이면 접속사 that (the belief that past spending should decide ~ / the fact that the past cannot be bought back). 뒤에 주어나 목적어가 빠진 불완전한 문장이면 관계대명사 that/which (effort that has been spent / a project which they invested in __).

접속사 자리에는 which를 쓸 수 없다. 또 관계대명사 that은 콤마 뒤(계속적 용법)나 전치사 바로 뒤(in that)에는 쓰지 않는다 — 이때는 '콤마 + which', 'in which'만 가능.

READING 1

What Most Guests Do

대부분의 투숙객이 하는 일

QR VIDEO YF-WR2-U10-R1

도입

Hotels often place a small card in the bathroom asking guests to reuse their towels. Most of these cards talk about saving water and protecting the planet. The message is reasonable, yet many guests simply ignore it. In one well-known study, researchers tried changing just one line on such a card. Instead of focusing on the environment, the new card told guests that most people who had stayed at the hotel reused their towels.

전개

That small change made a noticeable difference: more guests reused their towels when they read about what others did. The effect grew even stronger when the card mentioned guests who had stayed in the same room. **We are strongly guided by what people like us seem to be doing**, especially when we are unsure how to act. Psychologists call these unwritten rules *social norms*. A plea tells us what we should do; a norm tells us what is normal, and normal has a powerful pull.

결론

This also explains why some warnings backfire. A sign saying that many visitors pick flowers in a park may actually signal that picking flowers is common. Visitors who read it may think, "If so many people do it, one more flower will hardly matter." In other words, describing a bad habit as common can quietly invite more of it. **If you want people to act well, show them that good behavior is already the crowd's choice.**

WORDS 영영 뜻으로 익힌다

reuse	to use something again	**ignore**	to pay no attention to something
noticeable	easy to see or notice	**guide**	to influence or direct how someone acts
unwritten	understood by people but not written down	**plea**	a strong or emotional request
backfire	to have the opposite result from the one intended	**signal**	to show or suggest something

How a Story Grows on the Way

이야기는 전해지며 자란다

QR VIDEO YF-WR2-U10-R2

도입

Think of the last rumor you heard at school. By the time it reached you, it had probably passed through several people, and it may have looked quite different from the way it started. Researchers who study rumors have found that stories tend to change in similar ways as they travel.

전개

First, a story becomes ① shorter and simpler with each retelling. One of the most common changes ② are the loss of small details, such as exact times, places, and words like "maybe." At the same time, the parts that remain ③ become sharper and more dramatic. A classmate who was a few minutes late turns into one who missed the whole class. **One of the reasons for this is that every teller ④ wants the story to be worth telling.**

결론

The result is a story that is easier to repeat but _____, even though no single teller meant to lie. So the next time you hear something ⑤ surprising about someone, ask yourself how many people it has passed through before you pass it on.

WORDS 영영 뜻으로 익힌다

rumor
a story that spreads but may not be true

retelling
the act of telling a story again

detail
a small fact or piece of information

exact
completely correct in every way

dramatic
exciting and more extreme than usual

pass on
to give information to another person

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① harder for listeners to understand
② less interesting to most people
③ further from what really happened
④ more useful for making new friends
⑤ closer to the first teller's words

Born to Hear Every Sound

모든 소리를 듣고 태어나다

QR VIDEO YF-WR2-U11-R1

도입

Adults learning a new language often struggle to hear sounds that native speakers find obvious. Many Korean learners of English, for example, find it hard to tell "r" from "l" in pairs like "rice" and "lice." It seems natural to assume that this difficulty is something we are born with. Surprisingly, research on babies points in the opposite direction.

전개

In such studies, researchers play pairs of speech sounds to infants and watch for small reactions, such as a turn of the head, when the sound changes. **Babies of about six months can notice differences between sounds from almost any language**, including sounds they have never heard at home. By around their first birthday, however, much of this ability has faded for sounds that their own language does not use. Babies raised with English, for instance, gradually stop reacting to certain sound differences used in Hindi. The baby has not become less clever. Instead, **the brain has been tuning itself to the sounds that matter most in the world around it.**

결론

In a sense, every baby starts out as a citizen of the world and slowly becomes a local listener. This narrowing is less a loss than a smart trade, because it lets the child process its own language quickly and with little effort. It also means that adults can still learn new sounds, but they need far more practice than babies once did.

WORDS 영영 뜻으로 익힌다

struggle	to try hard to do something that is difficult	**native speaker**	a person who learned a language from birth
assume	to believe something is true without proof	**infant**	a very young child or baby
reaction	something you do because of something else	**fade**	to slowly become weaker and disappear
tune	to adjust something so it works best for a purpose	**process**	to deal with information in the mind

The Question That Isn't a Question

질문이 아닌 질문

QR VIDEO YF-WR2-U11-R2

도입

At dinner, someone asks, "Can you pass the salt?" Nobody replies, "Yes, I can," and goes on eating. If someone replied that way, the whole table would probably laugh. Everyone understands that the speaker is not asking about your arm strength. The sentence looks like a question, but it works as a request.

전개

Linguists call this an *indirect request*. It softens the request by ①giving the listener room to refuse, at least in form. A direct order like "Pass me the salt" leaves no such room, so it can sound ②rude at a friendly table. Young children tend to give orders, but as they grow, they learn to ask in gentler ways than they once ③were. Adults rarely misunderstand these questions, and neither ④do most older children.

결론

Of course, a listener from a different culture may take such words literally, as a very young child sometimes ⑤does. To such a listener, the question may sound strange or even unclear. **Politeness, it seems, often lives in the gap between _____.** Learning a language means learning that gap, too.

WORDS 영영 뜻으로 익힌다

linguist
a person who studies language

indirect
not saying something in a plain, open way

soften
to make something less strong or hard

refuse
to say no to a request or offer

literally
in the most basic meaning of the words

politeness
behavior that shows respect for others

1 빈칸 추론

Where the Lines Meet

선들이 만나는 곳

QR VIDEO YF-WR2-U12-R1

도입

Look closely at some European paintings made before the Renaissance, and something may seem slightly off. Buildings lean at odd angles, tables appear to slide toward the viewer, and people in the back are sometimes as large as those in front. The artists were highly skilled, but they lacked a reliable method for showing depth on a flat surface.

전개

During the Renaissance, Italian artists and architects worked out such a method, now known as *linear perspective*. **Its key idea is that parallel lines moving away from us seem to meet at a single point on the horizon.** This point is called the *vanishing point*. Think of railway tracks stretching into the distance: the rails never touch, yet they appear to come together far away. By drawing every line that runs into the distance toward one vanishing point, painters could make objects shrink in a steady, believable way. Objects farther away appeared smaller, just as they do in real life.

결론

The effect on viewers was powerful. A flat wall could suddenly look like a window opening onto a real room. **What made the trick so convincing was that it copied the way our eyes actually see the world.** Yet perspective is a tool, not a law, and many later artists broke it on purpose. Once painters knew the rule well, bending it became a way to say something rather than a mistake.

WORDS 영영 뜻으로 익힌다

lean	to bend or slope away from a straight position	**reliable**	able to be trusted to work well
depth	the distance from front to back	**architect**	a person who designs buildings
parallel	running side by side and never meeting	**horizon**	the line where the sky seems to meet the land
shrink	to become smaller	**convincing**	making people believe something is true or real

1 요지

다음 글의 요지로 가장 적절한 것은?

① 르네상스 이전의 화가들은 그림 실력이 부족했다.
② 선 원근법은 소실점을 이용해 평면에 실감 나는 깊이를 만들었다.
③ 좋은 그림이 되려면 원근법의 규칙을 반드시 따라야 한다.
④ 화가는 철로처럼 일상적인 소재를 즐겨 그려야 한다.
⑤ 그림의 가치는 그것이 그려진 시대에 따라 결정된다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

bending it became a way to say something rather than a mistake

① later painters slowly forgot how perspective worked
② breaking a rule always makes a painting more valuable
③ artists should follow every rule they have learned
④ errors in perspective are hard for viewers to notice
⑤ ignoring perspective on purpose could express an idea

3 내용 불일치

윗글의 내용과 일치하지 않는 것은?

① Some older paintings show people in back as large as those in front.
② Linear perspective was worked out during the Renaissance.
③ In the railway example, the rails only seem to meet.
④ The writer says perspective is a law all artists must follow.
⑤ Perspective could make a flat wall look like a window.

4 요약문 완성 서술형

윗글의 내용을 한 문장으로 요약하려고 한다. (A)는 주어진 철자로 시작하는 한 단어를, (B)는 윗글에서 찾아 한 단어를 쓰시오.

By drawing receding lines toward a single (A) v_____ point, linear perspective creates a believable sense of (B) _____ on a flat surface.

5 배열 영작 서술형

Colors That Push Each Other

서로를 밀어 올리는 색

QR VIDEO YF-WR2-U12-R2

도입

Painters have long known a simple trick: to make a color look more intense, place its opposite right beside it. On a color wheel, colors that sit directly across from each other, such as red and green or blue and orange, are called *complementary colors*.

전개

When two complementary colors stand side by side, each one appears ①stronger than it would alone. A small orange boat on a blue sea, for example, can look ②surprisingly bright. One explanation lies in how our eyes work. **After staring at one color for a while, the eye becomes less sensitive to it and more ready to see its opposite.** So each color, in a sense, _____.

결론

Artists use this effect ③carefully. A touch of red among green leaves can catch the eye at once, while colors that sit close together on the wheel tend to make a scene feel ④calm. Too many strong opposites in one place, however, can make a picture tiring to look at. **Used well, opposites do not fight; they work ⑤perfect together.**

WORDS 영영 뜻으로 익힌다

intense
very strong or bright

color wheel
a circle that shows how colors relate to each other

complementary
going well together by making each other better

stare
to look at something for a long time

sensitive
quick to notice or react to something

tiring
making you feel tired

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① hides the weak spots of the painting
② takes away some of its partner's light
③ turns into a softer version of itself
④ helps its partner look more vivid
⑤ tells the viewer where to stand

The Sound of Nothing

아무 소리도 없는 소리

QR VIDEO YF-WR2-U13-R1

도입

Ask people what music is made of, and most will say notes: high or low, long or short. Yet if you open any page of written music, you will find small symbols that tell the player to make no sound at all. These symbols are called *rests*, and they are measured as carefully as the notes around them.

전개

A rest is not simply a break for the player to breathe. **It gives the listener's ear a moment to take in what it has just heard.** A strong chord followed by sudden silence often feels more powerful than one that is held too long, because the silence lets it echo in the mind. Rests also create tension. When a familiar melody stops just before its final note, listeners lean forward, waiting for the line to be completed. Composers use this expectation on purpose. **The pause makes the return of the sound more satisfying than it would otherwise be.** In fast music, short rests work like punctuation in a sentence, separating one idea from the next so that the notes do not blur together.

결론

For this reason, many experienced musicians say that learning to play the rests is as hard as learning to play the notes. A beginner often rushes through the silence. A skilled player, however, counts it with the same care. In music, silence is not the absence of the song but a part of it. Without it, even the most beautiful notes would turn into noise.

WORDS 영영 뜻으로 익힌다

symbol	a sign or mark that stands for something	**take in**	to receive and understand something
chord	several musical notes played together	**tension**	a feeling that something is about to happen
expectation	a belief that something will happen	**punctuation**	marks such as commas and periods in writing
blur	to become unclear and hard to separate	**absence**	the state of not being there

Why the Body Sings

악기의 몸통이 노래하는 이유

QR VIDEO YF-WR2-U13-R2

도입

Stretch a guitar string between two metal posts on a table and pluck it, and you will hear only a thin, weak sound. The string ① vibrates quickly, but it is too narrow to push much air. Attach the same string to a guitar, however, and the sound becomes full and rich.

전개

The secret is *resonance*. The vibrating string passes its energy to the bridge, ② which sends it into the thin wooden top of the guitar. This large surface moves back and forth, pushing far more air than the string alone ③ could. The hollow body also works like a room in which certain sounds are made stronger. In other words, the string creates the sound, but the body _____. Not until the body joins in ④ the sound grows loud enough to fill a hall.

결론

This is why instrument makers care so much about wood, shape, and size. Violins, cellos, and drums all have bodies ⑤ built to resonate well. **Never is the voice of an instrument produced by the string or skin alone**; it is always a partnership between the part that shakes and the part that answers.

WORDS 영영 뜻으로 익힌다

pluck
to pull a string with your fingers and let it go

vibrate
to shake quickly back and forth

resonance
a sound made deeper and louder by vibration

bridge
the small piece that holds the strings up

hollow
empty inside

partnership
two parts working together

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① gives it the power to reach our ears
② decides which note will be played
③ stops it from vibrating too long
④ protects it from noise outside
⑤ turns it into a written melody

The Invisible Cargo

눈에 보이지 않는 짐

QR VIDEO YF-WR2-U14-R1

도입

When people hear the name *Silk Road*, they often picture a single road with camels carrying cloth from China to Europe. In reality, it was a wide network of routes that crossed deserts, mountains, and seas, linking many cities across Asia and beyond. Few traders ever traveled the whole distance. Instead, goods passed from hand to hand, moving a little farther with each exchange.

전개

Silk, spices, and other precious goods certainly moved along these routes. But **what traveled farthest was often something that could not be packed into a bag.** Merchants and monks carried their beliefs with them, and Buddhism spread from India into China partly along these paths. Methods for making paper moved westward over many centuries, slowly changing how distant societies kept records. Recipes, musical instruments, and ways of counting also crossed borders as travelers shared meals and stories in crowded markets. **Every caravan that stopped in a city left behind more than it had sold.**

결론

This is why many historians today describe the Silk Road less as a trade route and more as a long conversation between cultures. Most of the goods that were bought and sold have been used up or lost. Yet the ideas that traveled with them are still alive in the religions, foods, and tools of many countries. In the end, the most valuable cargo on the Silk Road was invisible.

WORDS 영영 뜻으로 익힌다

picture	to imagine something in your mind	**network**	a system of connected lines or paths
precious	rare and worth a lot of money	**merchant**	a person who buys and sells goods
westward	toward the west	**border**	the line between two countries
caravan	a group of travelers moving together	**cargo**	goods carried from one place to another

When Trains Set the Clock

기차가 시계를 맞추던 때

QR VIDEO YF-WR2-U14-R2

도입

For most of history, each town set its clocks by the sun: it was noon when the sun stood highest in the sky. By the time railroads spread in the 19th century, towns ① have kept their own local time for centuries, so two cities only a short distance apart could disagree by several minutes. For travelers on horseback, this hardly mattered.

전개

Trains changed everything. Railroads needed one timetable for many towns, but each station's clock showed a different hour. Some stations ② displayed several clocks at once. A traveler who ③ had set his watch in one city often arrived at the next station only to find that the timetable _____. Missed connections were common, and accidents became a real danger.

결론

To solve the problem, railroads in the late 19th century divided large regions into *time zones*. Inside each zone, every clock ④ showed the same time, and the next zone was usually one hour different. **What had begun as a business decision for trains soon became the time that everyone lived by.** Today, whenever we check our phones, we ⑤ are using a system that railroad schedules made necessary.

WORDS 영영 뜻으로 익힌다

local
belonging to a particular place

hardly
almost not

timetable
a list of times when trains arrive and leave

display
to show something so people can see it

connection
a train you change to during a trip

region
a large area of land

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① no longer matched his watch
② had been printed in another language
③ was posted only for railroad workers
④ had changed to a new season
⑤ required him to buy a second ticket

A Fire Drill for the Body

몸을 위한 소방 훈련

QR VIDEO YF-WR2-U15-R1

도입

Your body fights germs every day, but it does not always win quickly. When a new virus enters for the first time, the immune system needs time to study the invader and build the right defense. During those days, the virus can multiply and make you seriously ill. The body learns, but sometimes it learns too slowly.

전개

A vaccine is designed to solve this timing problem. It introduces the body to a weakened or harmless form, or part, of a germ, one that cannot cause the actual disease. The immune system reacts as if the threat were real. It produces antibodies, and, more importantly, it creates *memory cells* that remain in the body long after the vaccine is gone. **These cells act like guards who have already seen the enemy's face.** If the real germ appears later, they recognize it at once and call for a fast, strong attack. **The infection is often stopped before it has a chance to spread.**

결론

In this sense, a vaccine does not fight the disease directly. Instead, it trains the body to fight for itself. This is also why some vaccines are given in more than one dose: each one makes the memory stronger and longer-lasting. Like a fire drill at school, a vaccine lets the body practice the emergency before it happens. When the real alarm finally rings, the body already knows exactly what to do.

WORDS 영영 뜻으로 익힌다

immune system	the parts of the body that fight disease	**invader**	something that enters a place to attack it
multiply	to increase quickly in number	**harmless**	not able to cause hurt or damage
antibody	a substance the body makes to fight germs	**recognize**	to know someone or something you have seen before
dose	an amount of medicine taken at one time	**drill**	practice for what to do in an emergency

읽었으면 고르고, 쓴다

The Chair Problem
의자의 문제

QR VIDEO YF-WR2-U15-R2

도입

If you sat through six classes yesterday and then sat at a desk for homework, you ①must have spent most of your waking hours in a chair. The body, however, was built to move, and long periods of stillness affect how it works.

전개

When we sit for hours, blood moves more slowly through the legs, and our backs and necks suffer. Many people who wake up stiff blame their beds, but the real cause ②may have been the hours they spent sitting. Fortunately, the answer does not have to be a long workout. Short, frequent movement breaks can _____. Simply standing up, stretching, or walking for a few minutes every half hour helps.

결론

Imagine a student who felt sleepy and stiff yesterday afternoon. She ③should take a short walk at lunch, but she stayed at her desk instead. Her tiredness ④cannot have come from a lack of sleep, since she had slept well the night before. **Small, regular movements are an easy way to care for a body that was made to move.** So after sitting for a while, ⑤stand up and stretch.

WORDS 영영 뜻으로 익힌다

waking hours
the time when you are not asleep

stiff
hard to bend or move easily

조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

나는 어젯밤에 더 일찍 잤어야 했다.

조건 should, go to bed, early를 사용할 것 (필요하면 형태를 바꿀 것) · 8단어

2 한 문장 요약 서술형

READING 1의 내용을 vaccine과 memory cells를 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

어제 했어야 했는데 하지 못한 일 하나를 떠올려, Yesterday, I should have ~. Next time, I will ~. 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · 조동사 + have p.p. — 과거를 돌아보는 세 가지 눈

조동사 뒤에 have p.p.를 붙이면 '과거'에 대한 추측이나 후회가 된다. must have p.p. ~했음이 틀림없다 (강한 추측) · may have p.p. ~였을지도 모른다 (약한 추측) · cannot have p.p. ~했을 리가 없다 (강한 부정 추측) · should have p.p. ~했어야 했는데 (후회·유감)

yesterday, last night, but she didn't처럼 과거 단서가 있는데 should + 동사원형(should take)을 쓰면 틀린다. '과거에 하지 않은 일' → should have taken.

READING 1

Searching for Yes

'맞아'만 찾아다니는 검색

QR VIDEO YF-WR2-U16-R1

도입

Imagine that you believe a certain snack makes you smarter. You search online and quickly find three articles that agree with you. Satisfied, you close the browser. What you did not notice is that you never searched for articles that disagreed. You were not looking for the truth; you were looking for support.

전개

This habit is called *confirmation bias*: **we tend to search for, notice, and remember information that supports what we already believe.** It shapes how we read the news, judge other people, and even choose our friends. When evidence agrees with us, we accept it easily. When it does not, we question it closely or simply ignore it. The bias feels so natural that most people do not notice it working. In fact, **the more strongly we hold an opinion, the harder it becomes to see the facts that challenge it.** Even careful thinkers fall into this trap, because agreeing feels good while doubting feels like hard work.

결론

We may never remove this bias completely, but we should not let it make our decisions for us. Before you accept a conclusion, ask yourself a simple question: "What would change my mind?" Then go and look for that evidence on purpose. Read the strongest argument from the other side, not the weakest one. Remember that a belief that survives a fair test is worth keeping. Looking for what proves you wrong is uncomfortable, but it is the surest way to be right.

WORDS 영영 뜻으로 익힌다

satisfied	pleased because you got what you wanted	**support**	help that shows something is true
bias	an unfair tendency to favor one side	**evidence**	facts that show whether something is true
challenge	to question whether something is true	**conclusion**	a decision reached after thinking
argument	reasons given to show that an idea is right	**survive**	to continue to exist after a difficulty

1 주장

다음 글에서 필자가 주장하는 바로 가장 적절한 것은?

① 자신의 생각에 반대되는 근거도 일부러 찾아보아야 한다.
② 확실한 근거가 없는 생각은 처음부터 갖지 말아야 한다.
③ 다른 사람의 의견보다 자신의 판단을 믿어야 한다.
④ 인터넷 기사보다 책에서 정보를 얻어야 한다.
⑤ 의견이 다른 사람과는 논쟁을 피하는 것이 좋다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

a belief that survives a fair test is worth keeping

① we should never change a belief once we have formed it
② beliefs shared by many people are usually correct
③ testing our beliefs is a waste of time for most people
④ we should keep only the beliefs that make us comfortable
⑤ an opinion checked against opposing evidence deserves trust

3 내용 불일치

윗글의 내용과 일치하지 않는 것은?

① In the example, the person never searched for opposing articles.
② Confirmation bias can affect how we judge other people.
③ Most people do not notice the bias while it is working.
④ The writer says that we can easily remove the bias completely.
⑤ The writer suggests reading the strongest opposing argument.

Seeing Is No Longer Believing

보는 것이 더 이상 믿는 것이 아닐 때

QR VIDEO YF-WR2-U16-R2

도입

Not long ago, making a fake video of a real person required a film studio and a team of experts. Today, computer programs can do it in hours. These videos, known as *deepfakes*, are created by software that studies thousands of images and recordings of a person's face and voice. A famous person can ① be made say words that he or she never spoke, and the result can look completely real.

전개

For a long time, video recordings were considered ② trustworthy, because faking them was so difficult. That is changing. Experts say that small details can _____: lips that do not quite match the words, strange lighting around the face, or eyes that blink in an unnatural way. As the technology improves, however, such signs ③ are becoming harder to spot.

결론

That is why the most useful question is not "Does it look real?" but "Where did it come from?" A surprising clip should ④ be checked against trusted news sources before it is shared with anyone. **Viewers who are taught to ask about sources are far less likely to be fooled**, and that simple habit ⑤ makes everyone a little safer.

WORDS 영영 뜻으로 익힌다

fake
not real; made to look real

expert
a person with special skill or knowledge

trustworthy
able to be believed or relied on

spot
to notice or find something

clip
a short part of a video

fool
to trick someone into believing something false

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① reveal that a video is not real
② make a video more popular
③ prove that a video is genuine
④ be removed by special software

Rules Written in the Dark

내가 누구일지 모른 채 정하는 규칙

QR VIDEO YF-WR2-U17-R1

도입

Imagine that you and your classmates must write the rules for a new town. There is one strange condition: no one knows who they will be once the town begins. You might be rich or poor, healthy or sick, young or old. Only after the rules are fixed will each person learn which life is theirs.

전개

The philosopher John Rawls called this condition the *veil of ignorance*. His point was that **people who do not know their own position tend to choose fairer rules.** If you knew you would be wealthy, you might vote for low taxes and few public services. Behind the veil, however, that choice becomes risky, because you could just as easily end up as the person who needs a hospital, a school, or a ramp at the station. So most people start to protect the weakest position, simply because it might turn out to be their own. The veil does not make people kinder; it makes them careful.

결론

Of course, we can never truly forget who we are. Still, the question works as a useful test for any rule, from a school dress code to a national law. Before you support a rule, ask whether you would still accept it if you woke up as the person it affects most. A fair rule is one you would sign without knowing your seat. **What looks fair from the top can look very different from the bottom.**

WORDS 영영 뜻으로 익힌다

condition	something that must be true for something else to happen	**talent**	a natural ability to do something well
philosopher	a person who studies basic questions about life and ideas	**veil**	a thin cloth that covers the face; something that hides
ignorance	the state of not knowing something	**wealthy**	having a lot of money
ramp	a sloping path used instead of stairs	**dress code**	rules about what clothes people may wear

읽었으면 고르고, 쓴다

1 주제

다음 글의 주제로 가장 적절한 것은?

① ways to lower taxes without cutting public services
② why wealthy people usually prefer fewer public services
③ the difficulty of forgetting who we really are
④ how school rules differ from national laws
⑤ imagining an unknown position as a test of fairness

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

A fair rule is one you would sign without knowing your seat

① Rules should be made only by people in high positions.
② People should read every rule carefully before they sign it.
③ A fair rule must give every person exactly the same seat.
④ A fair rule is acceptable whatever position you end up in.
⑤ Fair rules are usually written in secret by a few experts.

3 내용 불일치

윗글의 내용과 일치하지 않는 것은?

① The writer says the veil of ignorance makes people kinder.
② In the imagined town, people learn their lives after the rules are fixed.
③ John Rawls gave the name veil of ignorance to this condition.
④ Behind the veil, voting for few public services becomes risky.
⑤ The writer admits that we can never truly forget who we are.

The Price You Cannot See

공짜 앱의 진짜 가격

QR VIDEO YF-WR2-U17-R2

도입

When an app costs nothing to download, we often tell ① us that we have found a great deal. But a company with hundreds of workers cannot run on kindness. If we are not paying with money, it is worth asking what we are paying with.

전개

The answer is personal information. A free app may record where you go, what you search for, and how long you look at each picture. That record is valuable to advertisers who want to reach people like ② you. **In this kind of deal, the user is not the customer; the user is part of the product.** Most people accept the terms without ever asking ③ themselves what they are giving away, because the cost is _____. No money leaves their wallets, so nothing seems to be missing.

결론

This does not mean that every free app is dangerous. It means that we should treat our data the way we treat our money. Check which permissions an app ④ requests, turn off the ones it does not need, and remind ⑤ yourself that a free service is often paid for with the information you leave behind.

WORDS 영영 뜻으로 익힌다

deal
an agreement in which people trade things

personal information
facts about a person, such as location or habits

advertiser
a person or company that pays to show ads

Shuffle the Deck

문제를 섞어서 풀면

QR VIDEO YF-WR2-U18-R1

도입

Most math textbooks are organized in neat blocks. After a lesson on circles, you solve twenty circle problems; after a lesson on triangles, you solve twenty triangle problems. This kind of practice, called *blocked practice*, feels smooth. By the tenth problem, you are working quickly and making few mistakes, so it seems obvious that you are learning.

전개

Researchers, however, have tested another approach called *interleaved practice*, in which different types of problems are mixed together. At first, it feels slower and more frustrating, because each new problem forces you to stop and ask which method fits. Yet that pause is exactly the point. **On a real test, problems do not arrive with labels telling you which chapter they come from.** In blocked practice, the chapter title quietly makes that decision for you. In mixed practice, you must make it yourself, and in many studies, learners who practiced this way did better on later tests, even though they had felt less confident while practicing.

결론

The lesson is that **the feeling of ease during practice is a poor guide to how much we are learning.** It may seem strange to choose a method that feels worse, but our sense of progress can easily fool us. When your practice feels a little messy, you may be building the very skill the test will ask for. So next time you review, shuffle your problems like a deck of cards.

WORDS 영영 뜻으로 익힌다

organize	to arrange things in a clear order	**neat**	tidy and well arranged
obvious	easy to see or understand	**approach**	a way of doing or dealing with something
frustrating	making you feel annoyed because things are hard	**label**	a small note that names or describes something
confident	feeling sure about your own ability	**shuffle**	to mix cards or things into a new order

읽었으면 고르고, 쓴다

1 요지

다음 글의 요지로 가장 적절한 것은?

① 문제 유형을 섞어 연습하면 더뎌 보여도 실력에 더 도움이 된다.
② 같은 유형을 반복해서 풀어야 실수가 줄고 자신감이 생긴다.
③ 시험 전에는 교과서의 단원 순서대로 복습하는 것이 좋다.
④ 연습할 때 느끼는 자신감은 시험 성적을 잘 예측해 준다.
⑤ 어려운 문제보다 쉬운 문제를 먼저 충분히 풀어야 한다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

you may be building the very skill the test will ask for

① you are probably studying from the wrong textbook
② the effort of choosing a method is what tests require
③ you should go back to solving one type at a time
④ messy notes usually show careless study habits
⑤ tests mostly ask questions about chapter titles

3 내용 일치

윗글의 내용과 일치하는 것은?

① Blocked practice usually makes learners feel slow at first.
② In interleaved practice, each problem comes with its chapter title.
③ Learners in mixed practice felt more confident while practicing.
④ The writer suggests solving problems in the order of the textbook.
⑤ On real tests, students must decide which method to use.

Work That Fills the Time

주어진 시간만큼 늘어나는 일

QR VIDEO YF-WR2-U19-R1

도입

Suppose your teacher gives you a week to write a one-page report. You will probably spend the first few days thinking about it, the next few days worrying about it, and the last night actually writing it. Now suppose the same report is due tomorrow. Somehow, it gets finished in a single evening, and the result is often just as good.

전개

The British historian C. Northcote Parkinson noticed this pattern in government offices and described it in a famous line: **work expands so as to fill the time available for its completion.** When we have plenty of time, we do not simply relax and finish early. Instead, we quietly make the task bigger than it needs to be. We check our notes again, add small details that nobody asked for, and spend long periods deciding how to begin. The task seems to grow, but most of the extra hours add little to the final result.

결론

The lesson is not that every deadline should be as short as possible; a rushed job can easily become a careless one. Rather, **it is wise to set our own limits instead of letting the calendar set them for us.** Before you start, decide how long a task truly deserves and give it a clear time box. If you do, the work will often shrink to fit the box you draw.

WORDS 영영 뜻으로 익힌다

due	expected to be finished or handed in	**historian**	a person who studies the past
expand	to become larger	**available**	able to be used or taken
completion	the act of finishing something	**rushed**	done too quickly, without enough care
deserve	to have earned or need something	**shrink**	to become smaller

Ten Workers, One Pin

핀 하나를 여럿이 만들면

QR VIDEO YF-WR2-U19-R2

도입

In *The Wealth of Nations*, the Scottish thinker Adam Smith described a small factory that made pins. A single worker doing every step alone, he wrote, could hardly make twenty pins in a day. The job was ①so complicated that one person could not do all of it quickly.

전개

In the factory, however, the work was divided among about ten people. One drew out the wire, another straightened it, a third cut it, and others ②sharpened the point or attached the head. Because each worker repeated one simple task, he became ③such a skilled hand that he worked far faster, and he wasted no time switching tools. **Together, the small team produced thousands of pins a day**, far more than the same ten people could have made ④working alone. From this example, Smith concluded that the division of labor is _____.

결론

Today the same idea runs through factories, kitchens, and hospitals. Yet Smith also saw a cost. He worried that a person who repeats one tiny task all day may find the work ⑤such dull that his mind has little chance to grow.

WORDS 영영 뜻으로 익힌다

describe
to say or write what something is like

attach
to join one thing to another

divide
to separate something into parts

division of labor
giving different parts of a job to different people

straighten
to make something straight

dull
boring; not interesting

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① a way to give workers more rest
② a key to greater productivity
③ too costly for small businesses
④ the reason pins became rare
⑤ a threat to the quality of goods

2 어법

윗글의 밑줄 친 ①~⑤ 중, 어법상 틀린 것은?

① ② ③ ④ ⑤

3 어법 고쳐 쓰기 서술형

위 문제에서 고른 부분을 바르게 고쳐 쓰고, 그렇게 고쳐야 하는 이유를 우리말로 쓰시오.

4 내용 서술 서술형

애덤 스미스가 분업에 대해 걱정한 점을 우리말 35자 내외로 쓰시오.

FIT WRITING

읽은 문장을 내 손으로 다시 쓴다

QR VIDEO YF-WR2-U19-W

A 구문 FIT

두 지문에서 뽑은 핵심 문장 · 덩어리마다 / 를 긋고 해석한다

1 When we have plenty of time, we quietly make the task bigger than it needs to be.

끊어 읽기 표시 → 우리말로 옮기기 **make + 목적어 + 형용사(비교급)**

2 He became such a skilled hand that he wasted no time switching tools.

끊어 읽기 표시 → 우리말로 옮기기 **such (a) + 형용사 + 명사 + that**

B 서술형 FIT

조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

그 과제는 너무 쉬워서 나는 한 시간 만에 끝냈다.

조건 so, that, easy, finish를 사용할 것 (필요하면 형태를 바꿀 것) · 12단어

2 한 문장 요약 서술형

READING 1의 내용을 work와 time을 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

마감이 넉넉해서 오히려 늦게 끝낸 경험을 떠올려, I had ~, but I ~ 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · so일까, such일까? — 바로 뒤에 명사가 있는지 본다

so + 형용사/부사 + that ~ / such + (a/an) + 형용사 + 명사 + that ~ 은 둘 다 '너무 …해서 ~하다'. The work was so dull that ~ (형용사만) · It was such dull work that ~ (형용사 + 명사) · He became such a skilled hand that ~ (a + 형용사 + 명사).

어순 주의: so + 형용사 + a + 명사도 가능하다 — so skilled a worker = such a skilled worker. 단, such a skilled는 되지만 a such skilled는 틀린다.

The Planes That Did Not Return

돌아오지 못한 비행기

QR VIDEO YF-WR2-U20-R1

도입

During World War II, military officials studied the planes that came back from their missions. Many of them were covered with bullet holes, especially along the wings and the body, while the engines showed far fewer. To the officials, the damage looked like a clear map of where the planes were weakest. The officials' plan seemed reasonable: add heavy armor to the places with the most holes.

전개

According to a famous story, a statistician named Abraham Wald pointed out a problem. The officials were looking only at the planes that had survived. **The holes showed where a plane could be hit and still make it home.** The missing holes told a different story: planes hit in the engines had probably crashed, so they never appeared in the data. The armor, Wald argued, belonged where the returning planes were clean. This mistake is now called *survivorship bias*: **we judge a whole group by the members that happened to remain visible.**

결론

We make the same mistake in everyday life. We hear about famous people who left school and became rich, but not about the many who left and struggled. We admire old buildings and decide that builders in the past were better, forgetting that most weak buildings fell down long ago. So before drawing a conclusion from what is in front of you, ask what the silent part of the picture would say.

WORDS 영영 뜻으로 익힌다

official	a person with an important job in a group or government	**mission**	a special task, often a military flight
armor	a strong metal cover that protects something	**statistician**	an expert who studies numbers and data
crash	to hit the ground or another thing violently	**bias**	an unfair tendency to favor one side
visible	able to be seen	**struggle**	to try hard but have great difficulty

읽었으면 고르고, 쓴다

1 주장

다음 글에서 필자가 주장하는 바로 가장 적절한 것은?

① 성공한 사람들의 습관을 그대로 따라 해야 한다.
② 결론을 내리기 전에 드러나지 않은 사례까지 고려해야 한다.
③ 자료가 부족할 때는 판단을 미루고 전문가에게 맡겨야 한다.
④ 오래된 건축물을 보존하는 데 더 많은 노력을 기울여야 한다.
⑤ 눈에 보이는 증거를 무엇보다 우선해서 믿어야 한다.

2 함의 추론

밑줄 친 부분이 글에서 뜻하는 바로 가장 적절한 것은?

ask what the silent part of the picture would say

① consider whether quiet people might disagree with you
② look at photographs carefully before judging them
③ think about the cases that never reached your view
④ trust the story that most people tell loudly
⑤ imagine how the present will look in the future

3 내용 일치

윗글의 내용과 일치하는 것은?

① The returning planes had the most holes in their engines.
② The officials first planned to put armor on the engines.
③ Wald carefully studied the planes that had crashed.
④ Wald suggested armor for areas without holes on returning planes.
⑤ The writer believes builders in the past were better than today's.

4 요약문 완성 서술형

윗글의 내용을 한 문장으로 요약하려고 한다. (A)는 주어진 철자로 시작하는 한 단어를, (B)는 윗글에서 찾아 한 단어를 쓰시오.

We often reach wrong conclusions because we look only at the cases that (A) s_____ and forget the ones that never (B) _____ in the data.

5 배열 영작 서술형

다음 우리말과 뜻이 같도록 <보기>의 말을 모두 한 번씩만 사용하여 문장을 완성하시오.

우리는 우연히 눈에 보이는 채로 남은 구성원들로 집단 전체를 판단한다.

보기 by / visible / judge / that / a whole group / to remain / the members / happened

We

Ice Cream on Trial

아이스크림은 무죄

QR VIDEO YF-WR2-U20-R2

도입

Imagine a report that shows a surprising pattern: in months when ice cream sales rise, swimming accidents also increase. A careless reader might decide that ice cream is dangerous. If the town ①had believed that claim last year, it ②would close every ice cream shop on the beach that same summer, and swimmers ③would have been no safer.

전개

In fact, both numbers rise for the same reason: hot weather. When it is hot, more people buy ice cream, and more people go swimming. A third factor like this, ④which moves two things at once, can create a link between them even when neither causes the other. **Two things that change together are not necessarily connected by cause and effect.** That is why careful scientists look for _____ before they claim that one thing causes another.

결론

Many news headlines skip this step. If the writer of the ice cream report ⑤had checked the weather, the article would have told a very different story. Whenever you see two trends moving together, ask what else might be pushing them both.

WORDS 영영 뜻으로 익힌다

pattern
a regular way in which something happens

claim
a statement that something is true

factor
one of the things that cause a result

cause and effect
the link between a reason and its result

skip
to leave out or not do something

trend
a general direction of change

1 빈칸 추론

윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① the most surprising pattern in the data
② stories from people who were affected
③ hidden factors that could explain the link
④ ways to make both numbers rise faster
⑤ reports that agree with their first idea

2 어법

윗글의 밑줄 친 ①~⑤ 중, 어법상 틀린 것은?

① ② ③ ④ ⑤

3 어법 고쳐 쓰기 서술형

위 문제에서 고른 부분을 바르게 고쳐 쓰고, 그렇게 고쳐야 하는 이유를 우리말로 쓰시오.

4 내용 서술 서술형

아이스크림 판매와 물놀이 사고가 함께 늘어나는 진짜 이유를 우리말 25자 내외로 쓰시오.

FIT WRITING

읽은 문장을 내 손으로 다시 쓴다

QR VIDEO YF-WR2-U20-W

A 구문 FIT

두 지문에서 뽑은 핵심 문장 · 덩어리마다 / 를 긋고 해석한다

1 The holes showed where a plane could be hit and still make it home.

끊어 읽기 표시 → 우리말로 옮기기 **간접의문문 · 조동사 수동태**

2 If the writer had checked the weather, the article would have told a very different story.

끊어 읽기 표시 → 우리말로 옮기기 **가정법 과거완료 (If + had p.p., would have p.p.)**

B 서술형 FIT

조건을 지켜야 점수가 된다

1 조건 영작 서술형

다음 우리말을 <조건>에 맞게 영어로 쓰시오.

내가 더 일찍 출발했더라면, 나는 버스를 놓치지 않았을 것이다.

조건 가정법 과거완료로 쓸 것 · leave, earlier, miss를 사용할 것 (필요하면 형태를 바꿀 것) · 11단어

2 한 문장 요약 서술형

READING 2의 내용을 together와 cause를 사용하여 영어 한 문장(15단어 이내)으로 요약하시오.

3 내 생각 쓰기 서술형

함께 일어나지만 한쪽이 다른 쪽의 원인은 아닌 두 가지를 떠올려, ~ and ~ often happen together, but ~ 의 흐름으로 영어 두 문장을 쓰시오.

어법 FIT · 과거를 뒤집는 가정 — If + had p.p., would have p.p.

이미 지나간 일을 반대로 가정할 때는 가정법 과거완료를 쓴다. If the town had believed the claim, it would have closed the shops. (실제로는 믿지 않았고, 닫지 않았다.) 주절의 would 자리에 could(~할 수 있었을 텐데), might(~했을지도 모른다)도 쓸 수 있다.

If절은 had p.p.인데 주절에 would + 동사원형을 쓰면 '지금' 결과(혼합가정법)가 된다 — If I had slept more, I would be less tired now. 결과도 과거라면(last year, that summer) 반드시 would have p.p.
